More Freeway, Fewer Deaths

Death rates on the Los Angeles metropolitan freeways have decreased over the past three years while many miles have been added to the system, the Automobile Club of Southern California said today.

City Hall May Get 'Face Lift' in Torrance

Torrance City Hall, "bulging at the seams," may undergo a mammoth remodeling and enlargement program if council-

said, "Our analysis shows no significant change in the number of deaths. Although many more miles have been added and traffic volume has increased tremendously, the death rate has decreased slightly."

men approve a recommendation by City Manager George Stevens.

Stevens was asked last week to prepare preliminary ideas for enlargement of the present City Hall, preparatory to hiring a consulting architect.

He said \$125,000 is in the city budget for such expansion.

Assistant City Manager Chapman Bone said city employees are "over-crowded" and offices are

"bulging at the seams."

He said the Recreation Department, presently in the old city hall building, will be forced to move out within six months when a finance company completes alterations.

"Our building inspectors are operating out of the basement," Bone said.

Stevens was asked to prepare preliminary ideas or the expansion as soon as possible.
